

Whole welded structure

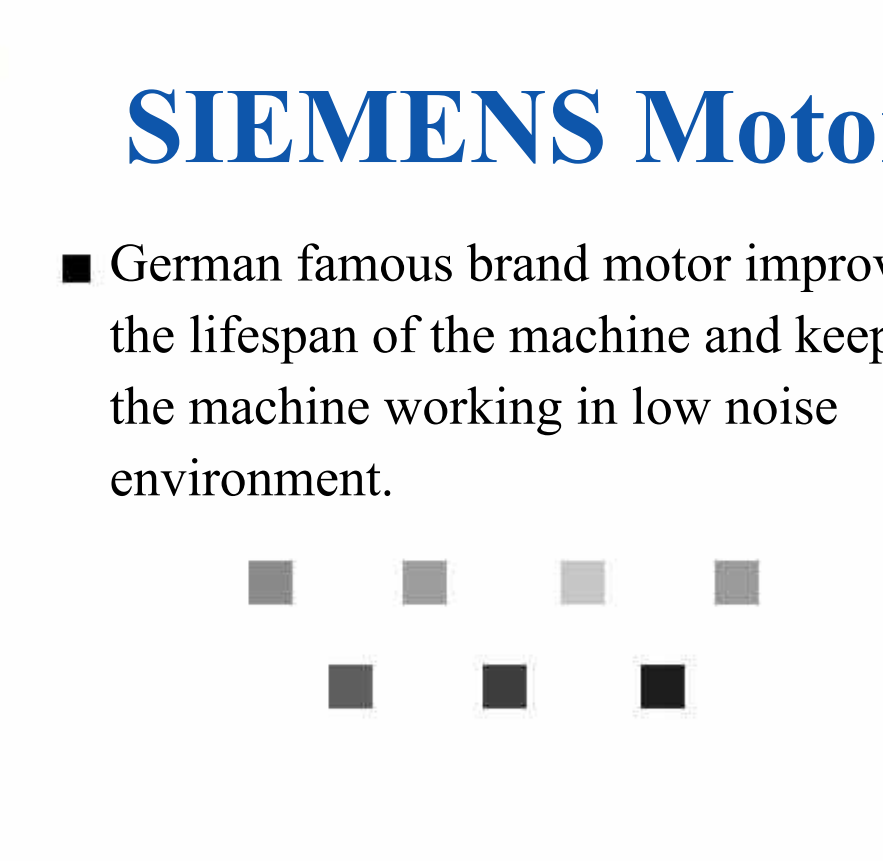

The streamlined welded machine structure achieves high rigidity; the machine is designed by ANSYS software which can ensure the reliability and precision of the shearing machine

STANDARD CONFIGURATION

E21S Controller

- Backgauge(X axis) movement control
- Control AC motor or inverter
- Intelligent and unilateral positioning
- Work-piece counting function
- Double programmable digital output
- 40 programs stored, 25 steps per program
- One key back-up/restore of parameters
- Unit for mm/inch
- Language for Chinese/English

SUNNY Pump

- American world famous brand for hydraulic pump performs well and provides great power for the whole hydraulic system

SIEMENS Motor

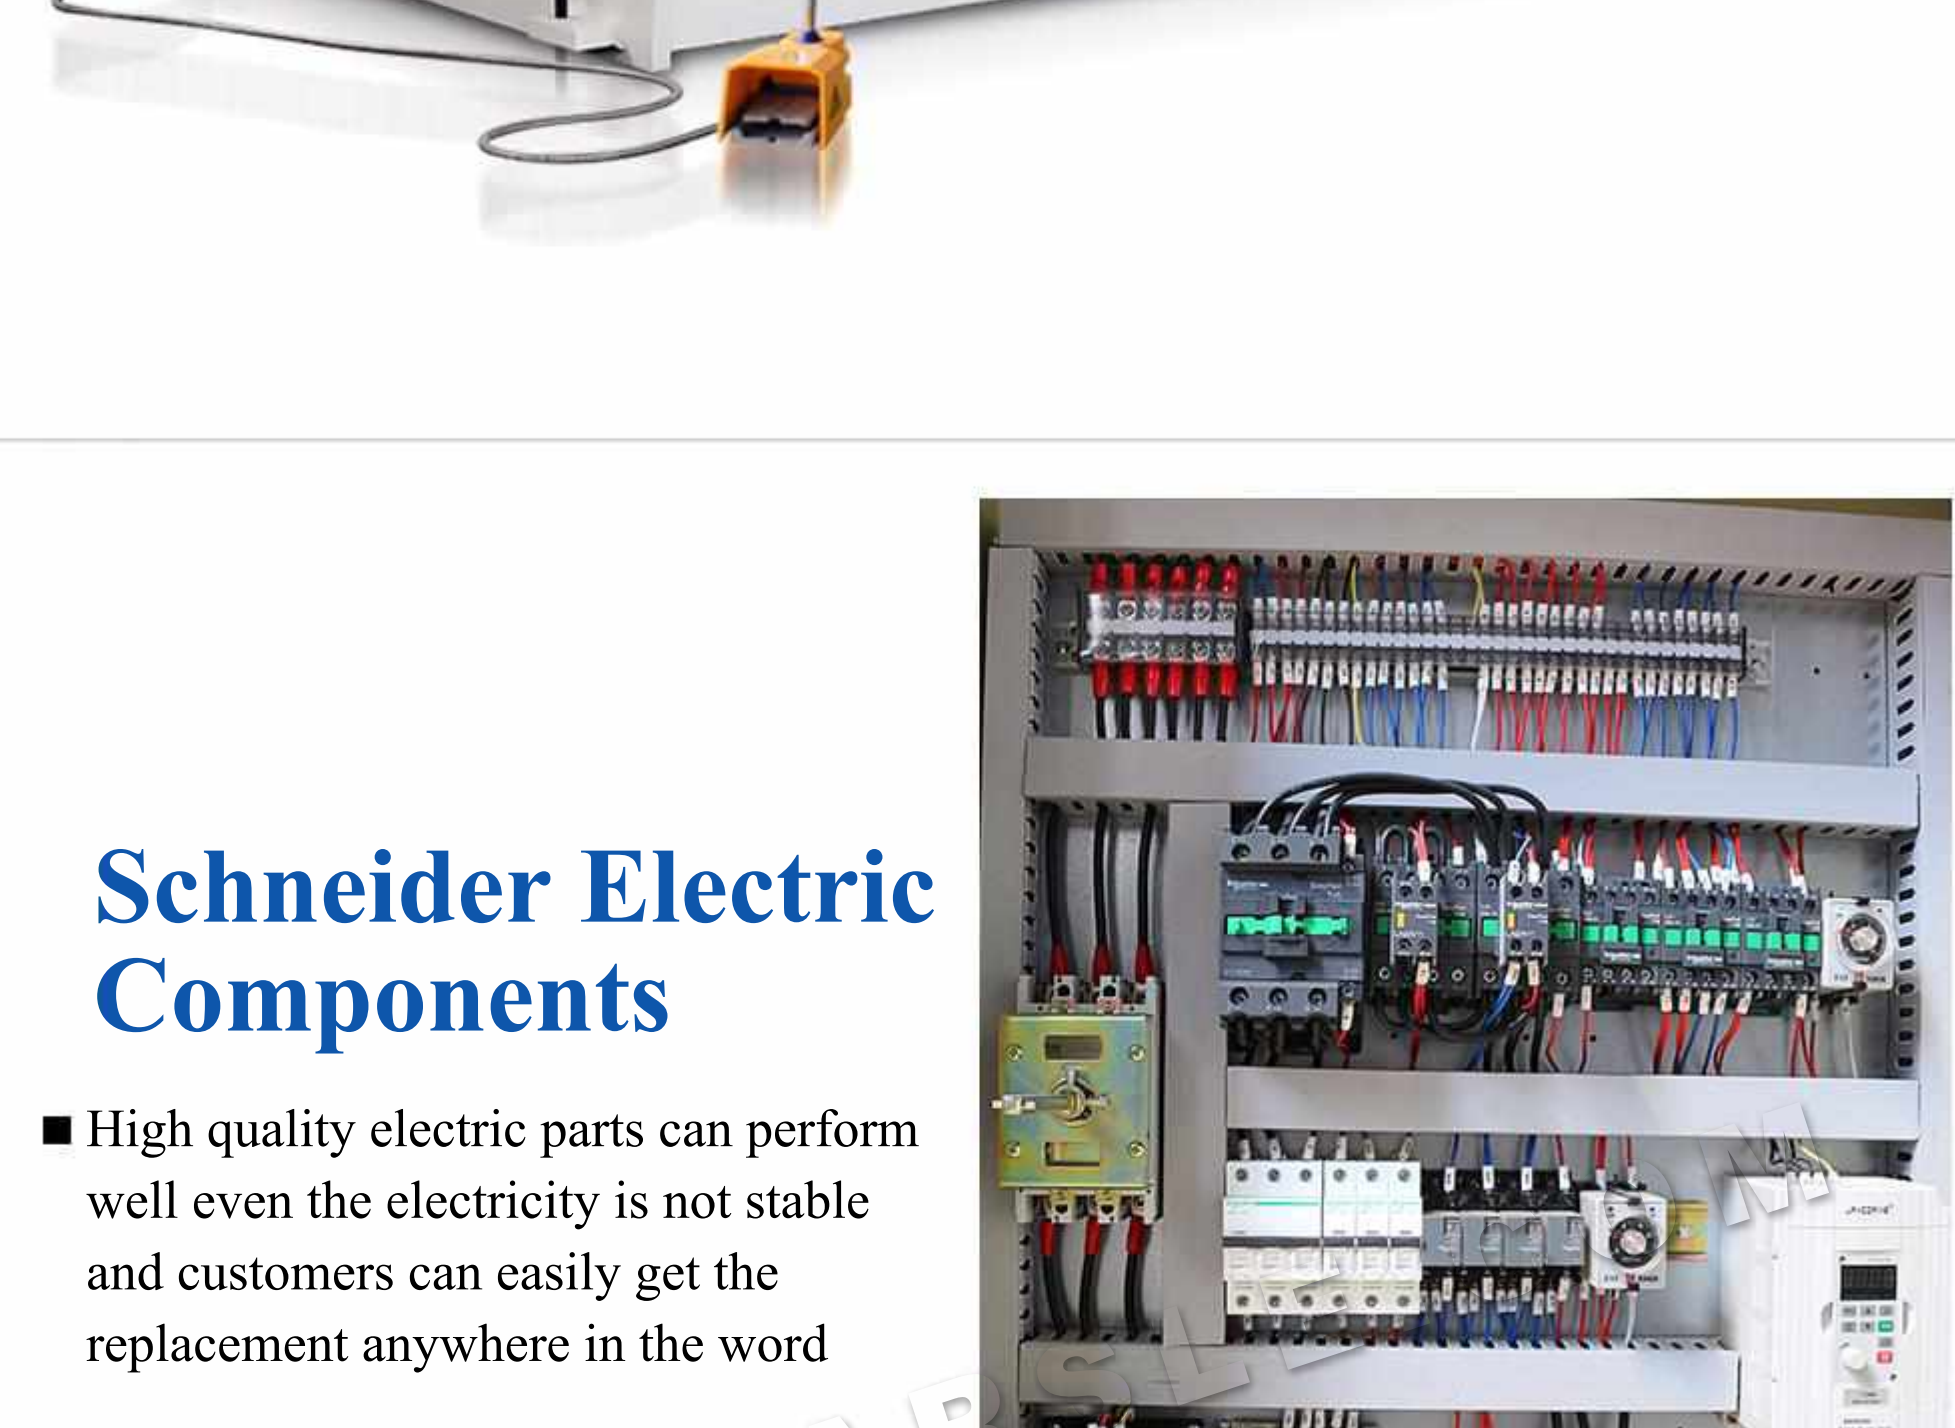

- German famous brand motor improves the lifespan of the machine and keeps the machine working in low noise environment.

SIDE

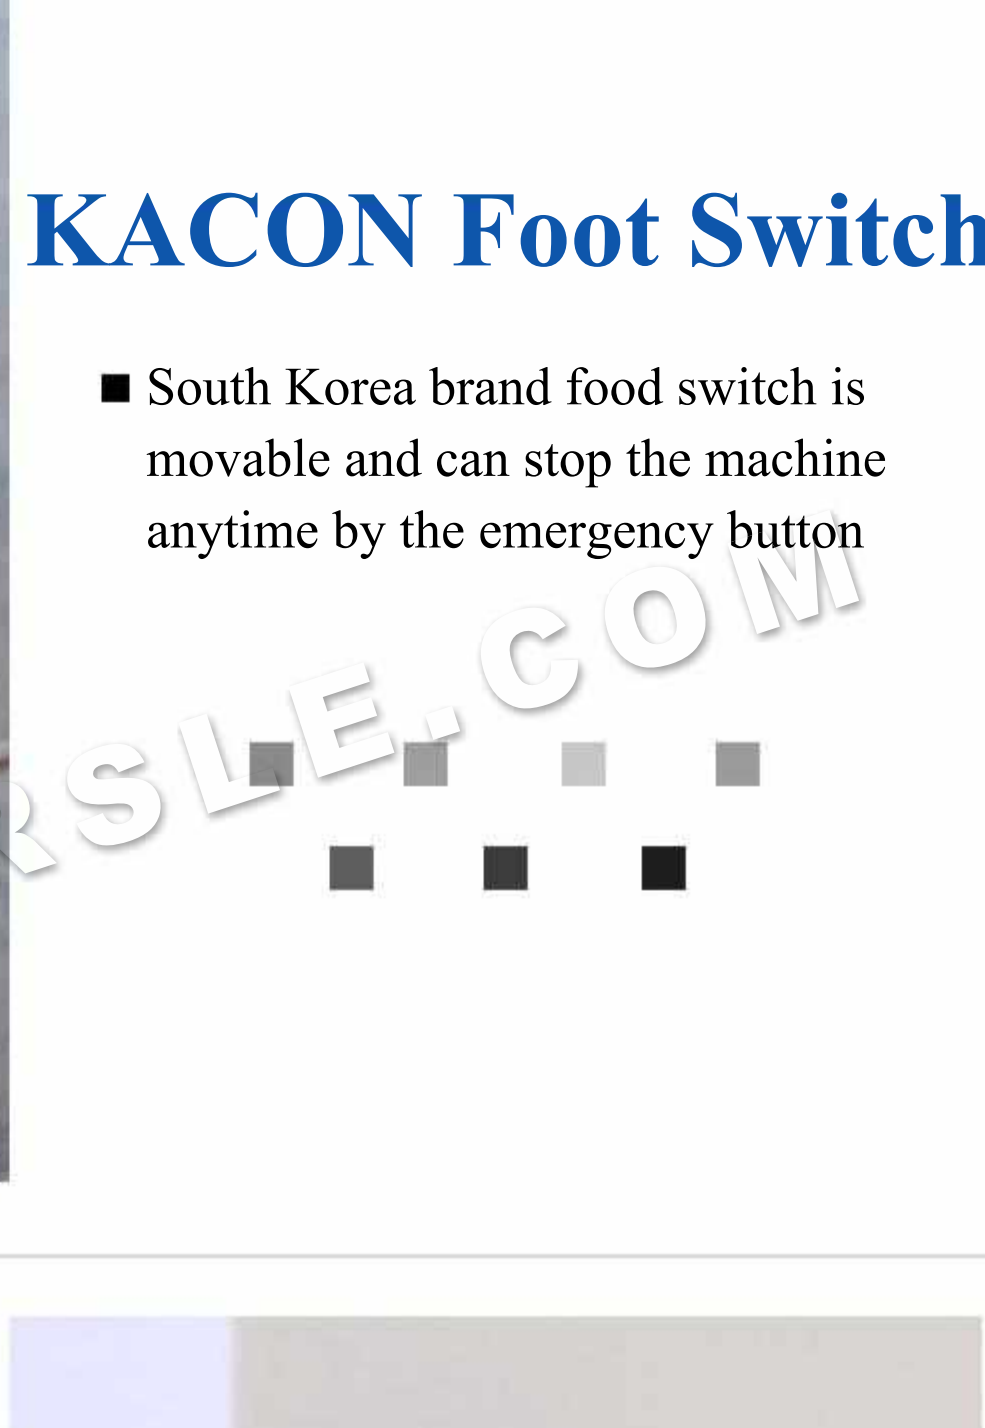

SHOW

The motors for backgauge are controlled by inverter, which can achieve high positioning accuracy 0.05mm of the backgauge by changing the frequency and oltage of motor.

Schneider Electric Components

- High quality electric parts can perform well even the electricity is not stable and customers can easily get the replacement anywhere in the word

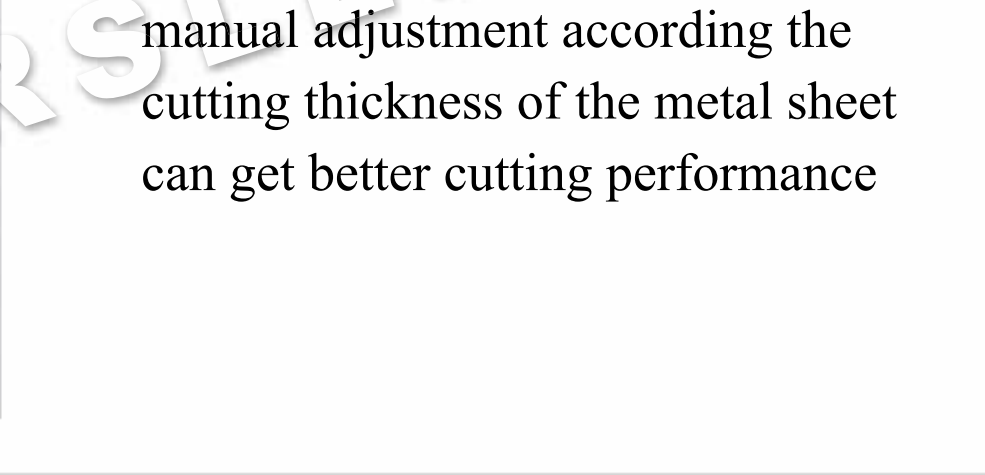

KACON Foot Switch

- South Korea brand food switch is movable and can stop the machine anytime by the emergency button

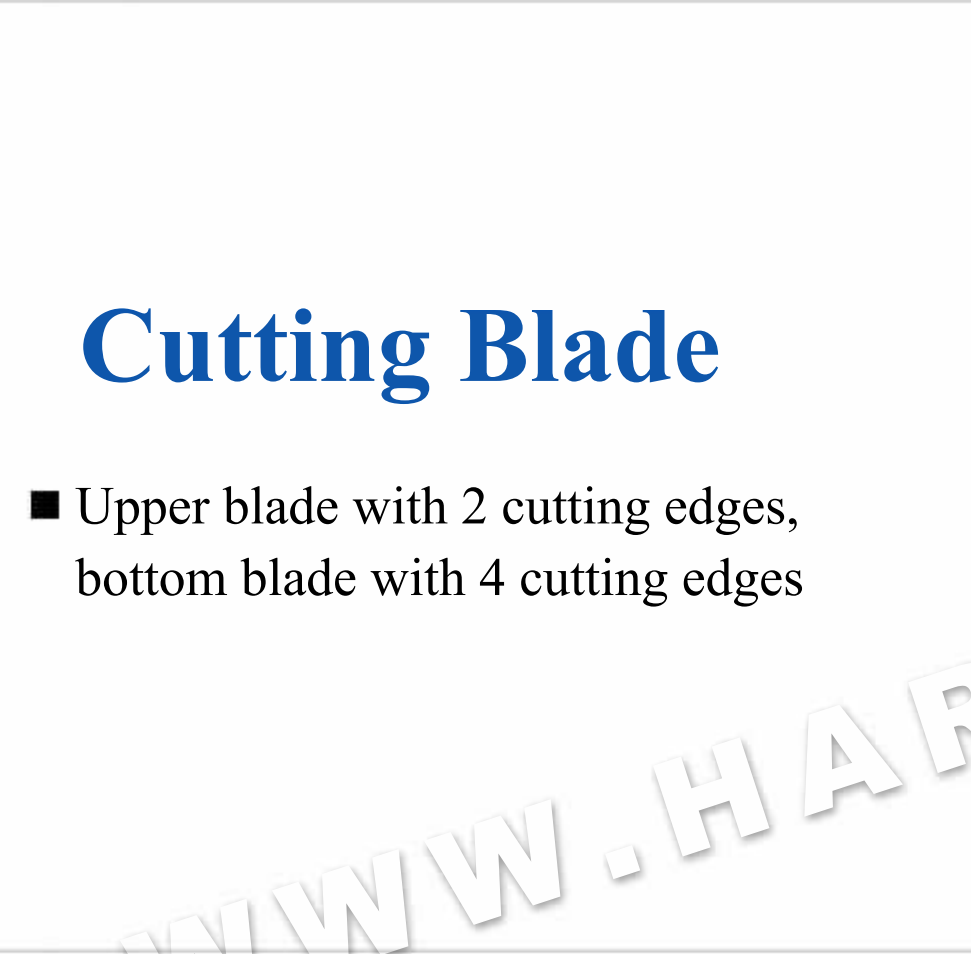

Open Door Power off Switch

- The machine will stop immediately once worker opens the door electric cabinet.

Blade clearance adjustment

- Adjust the cutting blades gap by manual adjustment according the cutting thickness of the metal sheet can get better cutting performance

Cutting Blade

- Upper blade with 2 cutting edges, bottom blade with 4 cutting edges

Front Arms

- Roller ball is instalked on the arm with ruler can reduce the abrasion and feeder the machine easily and accurately

Safety Fence

- Protective guards on each side can protect the user during operation

BACK

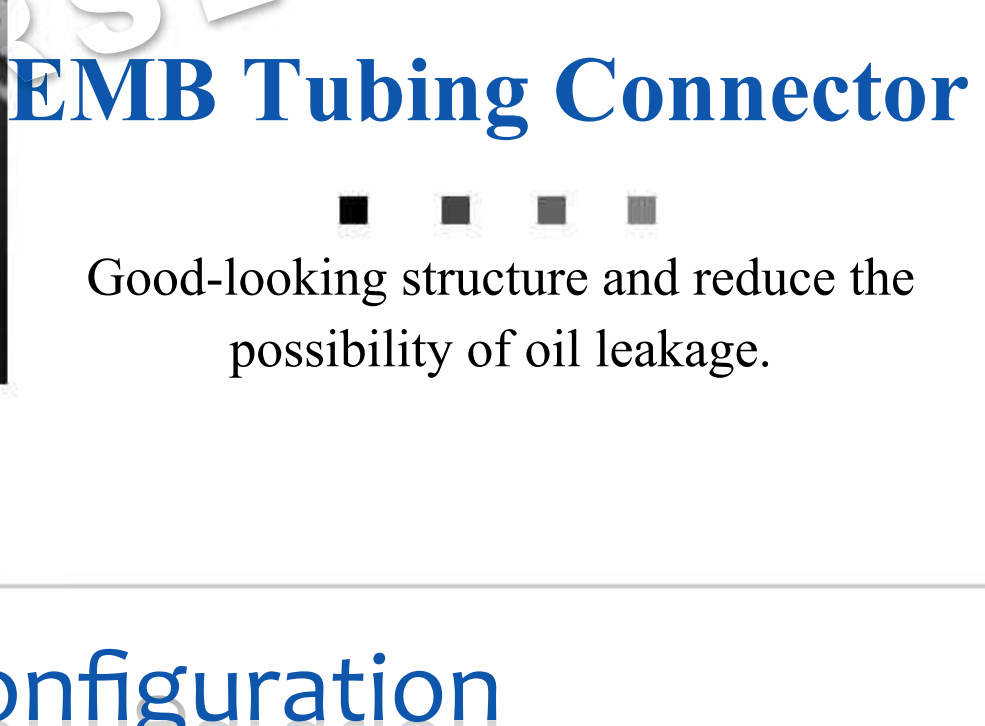

SHOW

Multi angle Preview

HIWIN Ball Screw

- Adjust Backgauge up and down

Rexroth Valve

- World famous brand REXROTH, Sub-brand of BOSCH, which is the professional hydraulic-valve supplier.

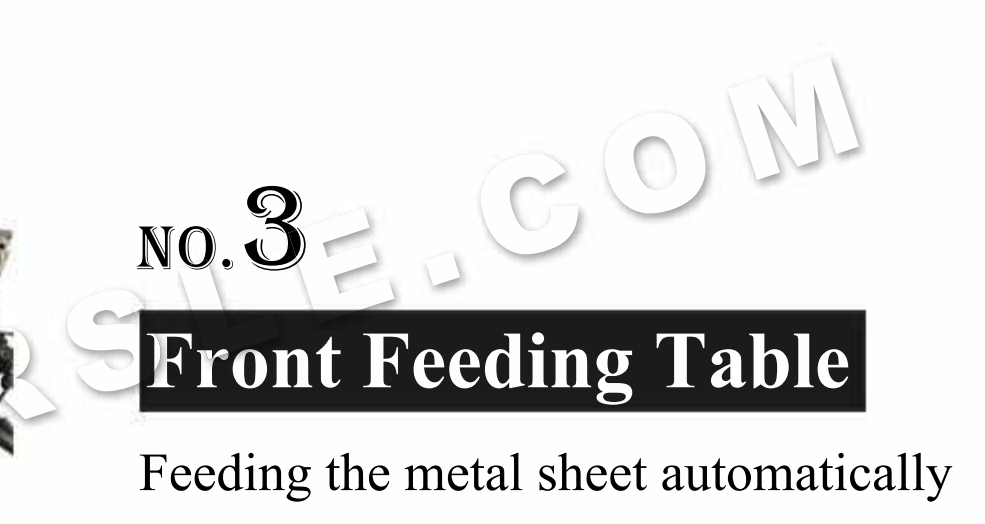

Optional Configuration

NO.1 Pneumatic Back Supporter

NO.2

Light Curtain

NO.3

Front Feeding Table

- Feeding the metal sheet automatically controlled by CNC controller with high precision and efficiency.
